Forecast for Saturday 22 Apr 2023

Weather: Dry with prolonged clear then sunny periods for the majority. However low cloud feeding around northern and eastern ranges, most extensive early Saturday morning, thinning during the day. Cloud thickening from the east from late afternoon, bringing occasional snow, rain below 800m, for the evening.

Chance of cloud-free hill tops above 800m: 90% or more for much of day, but note lower cloud expected around northern ranges, lowering from late afternoon, becoming 30% late evening.

Low cloud and visibility: Good or very good, becoming moderate or poor in rain, very poor in snow and within cloud with cloud occasional at low to mid-levels in north by day, becoming more extensive during the evening.
